## Unit Overhaul – Complete Refurbishment

A customer's coating header unit from a decorative steel finishing application. Fully refurbished within our Wyke facility.

Strip & Inspection Report Issued – Resultant Work-scope fully itemised, costed & agreed.

Drawings prepared as required - Machining, Welding, components repaired / replaced as required.

Individual Units Overhauled - Gearboxes & Screw-Jacks refurbished, Hydraulic Cylinders overhauled, linear slide rails replaced.

Complete Unit rebuild - Ready for shipping back to site to suit client's requirements. Customer Witness Testing prior to despatch available.
