

# Cyrus -Bradford (South Wales)

## Castings Added to Services Offering

### Update:

In addition to our established services and new South Wales workshop we are keen to introduce our new Casting Capability run from our South Wales facility.

Perfect addition to existing refurbishment & machining services, we now offer casting supply, individual one-off replacements through to ongoing volume manufacturing.

This new service will be headed up by a casting specialist joining us with over 25 years of experience delivering casting solutions across all industries. We will be delighted to discuss your requirements with you.

We offer castings in a wide range of materials, including alloy selections for the most arduous of conditions. Ferrous & Non-Ferrous items supplied, we can accommodate upto 20 tonnes carbon steel, with impressive capacity on a full range of other materials.

We offer selection advice right across all casting processes, delivering best solution fit for the application.

A first-rate addition to the Cyrus-Bradford range of services.

### Casting Services:

Casting Supply  
Pattern Making  
Machining  
Pressure testing  
NDT
