

Cyrus -Bradford (South Wales)

Our New Manufacturing & Engineering Facility at Briton Ferry

Update:

South Wales Industry is well known to Cyrus-Bradford (EPS). Recent years supporting customers in the area via a local sales team office base in Port Talbot and manufacturing at our Wyke Bradford facility.

To further support our customers we've added local manufacturing capability, supported by the other facilities for more specialised services. Thus, offering an extensive range of flexible services to key customers all managed locally.

We are delighted to announce our new manufacturing / servicing facility at Briton Ferry. This significantly increases the level of prompt localised service we can offer customers in the region.

Client Support:

Local manufacture, machining & fitting services. Access to our specialist gearing & cylinder service divisions. We look forward to being of assistance.
